AQUARIO GOLD

In partnership with the world-renowned watercolor artist Joseph Zbukvic, Escoda is thrilled to release the Aquario Gold series. This elite brush magnifies the unique characteristics of the traditional Aquario brush with a longer length and an enhanced tip. The Aquario Gold mop brush is the best in retaining liquid, affording the artist the ability for large washes without the constant interruption of returning to the palette for more paint or to worry about drying up during the wash. Locked in a pristine gold, triple crimped ferrule, the natural soft squirrel hair undergoes Escoda's signature memory process creating an amazingly sharp point that will snap back to its original shape after every stroke.

VERSÀTIL

This brush was designed with versatility as the primary focus and Versàtil really lives up to its name. This line of brushes possesses exceptional snap, superior absorption and fluid retention. It is excellent for use both with watercolor and oil & acrylic, allowing artists to create fine details as well as providing superior performance for coloring large areas and backgrounds. A truly superior option in the world of synthetic brushes.

ÚLTIMO

An almost perfect imitation of squirrel has been achieved with this artificial hair. The extraordinary softness of the Último series allows for a capacity to retain liquids nearly identical of that of natural squirrel hair and is so superior it could become a benchmark to replace natural hair in the future.

WATERCOLOR – SYNTHETIC FIBERS

PRADO

The Prado line features one of the most valued synthetic fibers because of its similarity to sable hair. It not only imitates its color, but also mimics natural sable’s spring and absorption of liquids. Thanks to the perfect combination of three different diameters and three lengths in the fibers, the brushstroke’s result is the same as one made of natural hair.

PRADO

The Prado line features one of the most valued synthetic fibers because of its similarity to sable hair. It not only imitates its color, but also mimics natural sable's spring and absorption of liquids. Thanks to the perfect combination of three different diameters and three lengths in the fibers, the brushstroke's result is the same as one made of natural hair.

MARFIL

The Marfil series imitates the performance of a natural hog bristle. Its fibers' thickness is similar and ample enough to provide a brushstroke that is both soft yet tough, making this series an ideal fit for oil or acrylic painting.
