Speedball®

Speedball®

Screen Printing

From inks, modifiers and fluids to squeegees & frames, Speedball leads the industry in creating products that combine superior performance with value. Whether you're just starting out with one of our all-in-one kits or are a screen printer wanting pro tools & accessories for your studio, Speedball is the only resource you need to find all things screen printing.

There are three primary means of producing a screen printed image, each one with their own features, benefits and limitations.

1. CUT PAPER STENCIL OR VINYL STENCIL

BEST FOR:

- Fast, graphic image-making
- Introducing yourself to the screen printing technique

FEATURES:

This technique relies on cutting your stencil out of thin paper or vinyl. Given its simplicity, it requires the least amount of preparation, but paper stencils also allow for limited detail.

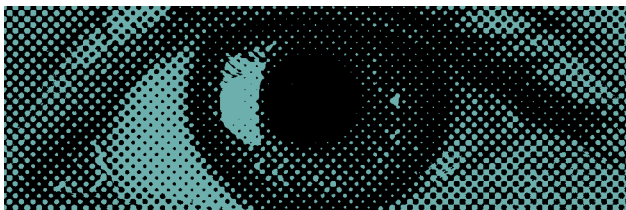

2. DRAWING FLUID & SCREEN FILLER METHOD

BEST FOR:

- Hand-drawn or painted imagery
- Greater detail and control without need for exposure

FEATURES:

Drawing fluid and screen filler work together to create a painted stencil. This is an effective technique for detailed hand-drawn images, or images with a “painterly” quality.

3. PHOTO EMULSION + SPEED SCREENS™ METHOD

BEST FOR:

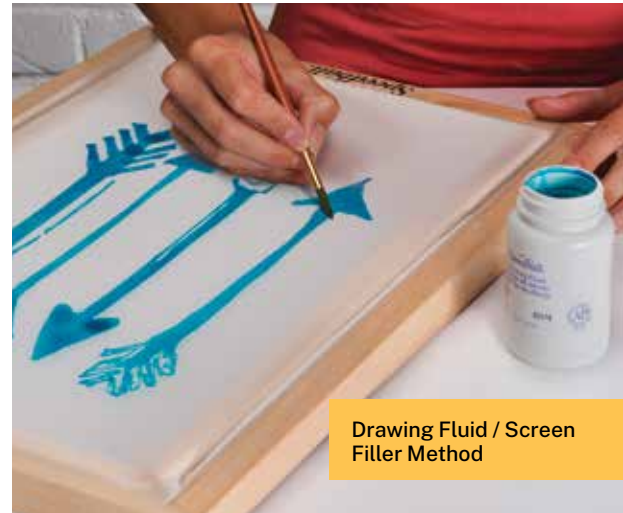

- Creating a photographic stencil of a pre-printed black and white image.

FEATURES:

Photo emulsion allows for highest fidelity and detail. Almost anything you can print from a black and white printer you can expose as a photo stencil. Because of the specific tools and intricate steps, this is also the most complicated technique.

Vinyl Stencil Method

Drawing Fluid / Screen Filler Method

Speed Screens™ Method

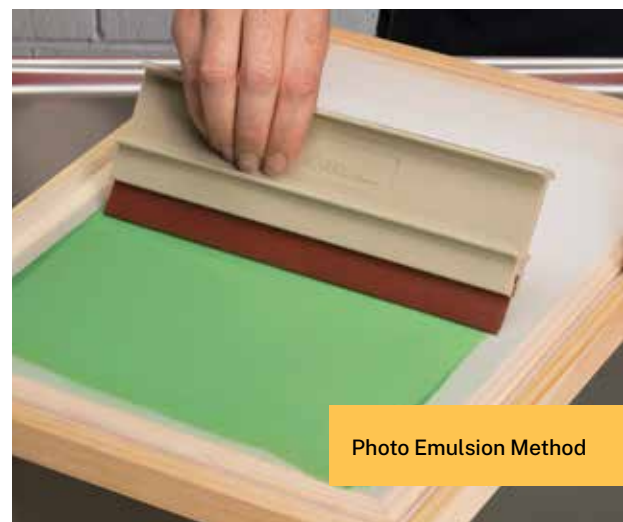

Photo Emulsion Method

MEET THE ARTIST James Flames

"I exclusively use Speedball's Acrylic Screen Printing Ink for all my printing. The saturation of the colors is second to none – they mix very well so that I can create very specific hues as well as regulate the opacity and transparency of the inks. The consistency is just right for screen printing – especially for me, since I still pull all my prints by hand. It's not too thin, not too thick, just right."

ARTWORK BY: JAMES FLAMES

SCREEN PRINTING INK

FABRIC SCREEN PRINTING INK

Available in (26) rich colors, including fluorescent, Night Glo™ and process colors, Speedball's Fabric Screen Printing Ink offers artists more vibrant colors, greater coverage, smoother workability, softer hand and easier cleanup than any other screen printing ink on the market. Inks print well on a range of fabrics, paper and cardboard. Washfast on textiles if properly heat set. Contains no offensive smell or solvents.

SCREEN PRINTING INK ADDITIVES, MODIFIERS + MEDIUMS

GLITTER ADDITIVE
Speedball Glitter Additive is formulated to work with Speedball Fabric and Acrylic Inks in nearly any proportion to achieve desired level of sparkle.

- #004810 CLAMSHELL
- #004811 JAR

PUFF MODIFIER
For use with all Speedball's Fabric Screen Printing Inks. Add a new level of dimension to your prints with the power of PUFF!

- #004815 4 FL OZ | 118 ML
- #004816 8 FL OZ | 236 ML

ACRYLIC EXTENDER BASE
For use with all Speedball's Acrylic Screen Printing Inks, it is formulated to create a more transparent color. Mix in with any of the Speedball Acrylic Inks, in any proportion, to achieve desired level of transparency.

- #046219 8 FL OZ | 236 ML
- #046419 32 FL OZ | 946 ML
- #046619 128 FL OZ | 3 L

SCREEN RETARDER BASE
For use with all Speedball's Acrylic and Fabric Screen Printing Inks. Formulated to slow ink's drying time.

- #004639 8 FL OZ | 236 ML

GLOSS OVERPRINT VARNISH
This Acrylic-based varnish protects against scuffing, yellowing, weathering and water when screened over prints on paper.

- #046420 32 FL OZ | 946 ML
- #046620 128 FL OZ | 3 L

TRANSPARENT BASE
For use with all Speedball® Acrylic and Fabric Screen Printing Inks, it is formulated to create a more transparent color. Only 10-15% mixture is recommended for use with any Speedball Fabric Ink to ensure permanence after heat set.

- #004552 8 FL OZ | 236 ML
- #004577 32 FL OZ | 946 ML
- #004682 128 FL OZ | 3 L

SCREEN PRINTING ADDITIVES, MODIFIERS + MEDIUMS

DRAWING FLUID

For use with the Drawing Fluid + Screen Filler screen printing method. Speedball's Drawing Fluid can be brushed onto the screen to create hand drawn images.

#004531 8 FL OZ | 236 ML

#004571 32 FL OZ | 946 ML

SCREEN FILLER

For use with the Drawing Fluid + Screen Filler screen printing method. Designed to block out areas of the screen that are not intended to be printed.

#004530 8 FL OZ | 236 ML

#004570 32 FL OZ | 946 ML

SCREEN PRINTING TOOLS

TOOLS & ACCESSORIES

In addition to our industry-leading inks, Speedball also offers an impressive range of screen printing frames, fabric and squeegees. For the professional artist needing to restock their studio, the Speedball Professional® Series of tools is a perfect fit. Featuring superior quality and craftsmanship, this line boasts an array of Aluminum Frames, Scoop Coaters, Squeegee Rack and Block Out Tape—an offering perfectly-suited to outfit any workspace.

FABRIC SQUEEGEES

Designed specifically for printing on fabric, the edges are rounded in order to allow more ink to be pushed through the screen printing frame's fabric. This ensures consistent coverage every time and superior results. Available in (5) sizes.

- #004490 6 IN | 15 CM 65 DUROMETER
- #004491 8 IN | 20 CM 65 DUROMETER
- #004492 10 IN | 25 CM 65 DUROMETER
- #004493 12 IN | 30 CM 65 DUROMETER
- #004494 14 IN | 35 CM 65 DUROMETER

GRAPHIC SQUEEGEES

Square-edged blades are securely set within a wood handle with a comfortable grip. Ideal for printing short print runs of graphic images onto paper, cardboard or wood. Available in (5) sizes.

- #004539 6 IN | 15 CM 70 DUROMETER
- #004535 8 IN | 20 CM 70 DUROMETER
- #004536 10 IN | 25 CM 70 DUROMETER
- #004537 12 IN | 30 CM 70 DUROMETER
- #004538 14 IN | 35 CM 70 DUROMETER

RED BARON™ SQUEEGEES

Dual-edge, economy squeegee with comfortable fingertip grips. Ideal for beginner screen printers and classrooms. 9in (22cm) plastic squeegee.

- #004478 9 IN | 22 CM RED 10PK
- #004479 9 IN | 22 CM RED
- #004476 6 IN | 15 CM BLACK
- #004477 9 IN | 22 CM BLACK

CRAFT SQUEEGEES

Available in graphic and textile printing variations, these are easy-to-use in the classroom and friendly to the budget. With a 65 durometer, medium hard blade, the beige Craft Squeegee is great for printing on fabric, while the burgundy Craft Squeegee is the perfect tool for printing on paper, cardboard or wood.

- #004508 9 IN | 22 CM BURGUNDY 65 DUROMETER
- #004534 9 IN | 22 CM BEIGE 65 DUROMETER
